ABOUT US

Australia's Premier Digital Screen Supplier.

DIGITAL SCREEN DISPLAYS is committed to providing the best products and services for a customers nationally.

We are proud to be integrators of the highest standard, using only premium sourced hardware technologies, to lead our industry. With 30 years of local expertise and Australia's leading brands as our clientele, every project we embark on is inspired by our goal, which is to provide the highest standard of product and services to our customers.

We stay with you throughout the life of your purchased product, supporting you and maintaining your assets to ensure we maximise their life and facilitate the potential return on your investment. We provide in-house services for every stage of your signage project, ensuring a smooth on-time delivery of your new display systems.

In this rapidly changing industry, we've recognised the importance of continually updating our approach to stay relevant in today's market, and we are committed to staying true to our mission, bringing your vision to life. We work in a highly competitive field, so we constantly invest in technology and research to make sure we stay ahead of the curve. Our commitment to quality guarantees our success and therefore your satisfaction.

With an Australian qualified, local service team, we will ensure your assets are maintained to the highest standards, whilst reducing the time taken to service your screens.

With over 3 decades of experience procuring, installing and maintaining digital screens, we are so confident in our systems and products, we guarantee your satisfaction.

We thank you for your interest in working with us and we look forward to hearing more of your upcoming project/s.

WHO ARE DIGITAL SCREEN DISPLAYS

Reliability matters

Our screens are designed for operation 24/7 with in-built redundancies and fail safes to minimise down time

10 Year brightness Warranty

We are so confident in our product, we can guarantee it for 10 years!

Reduced power consumption

With the highest quality components & smarter control functionality, we will reduce power consumption by approx 40%

End-to-End Installation

Our highly qualified team of engineers, project managers and technicians will ensure the installation process will be professionally handled at all times.

24/7 Support

Our dedicated support team is available 24/7 with industry experts ready to resolve any issues, should they arise.

Cloud Based Monitoring

Every system sold comes with a 24/7 cloud based monitoring package, including mobile & web based interfaces to ensure if issues arise, they are fixed immediately
